

The application period closed Friday, September 29, 2017 at 5:00 PM.

Your supporting documentation, estimates and additional information will continue to be accepted if your application was in by the deadline.

Procedural update.

The legislation providing the Flood Relief funding required that we prioritize situation that pose imminent health and safety risks to the occupants. This includes damage to structure, walls and septic systems. This application will be served before stand-alone shoreline applicants.

Stand-alone shoreline damage application will be reviewed and applicants will be contacted if additional information is needed at such time as we are able to serve them. Once you have applied no further action is needed until you are contacted by our staff.

The best way to communicate is via e-mail to floodrelief@pathstone.org. We can respond to at least 10 emails in the time that is spent on one phone call.

Please help us help you more efficiently.
